

WayCon Code of Conduct

The preservation of the environment and natural resources is a serious responsibility of WayCon Positionsmesstechnik GmbH. In order to consistently implement the sustainability guidelines of our products, we also expect our suppliers to meet environmental requirements.

All products supplied to WayCon are free of materials whose circulation violate the following European regulations and guidelines, and whose implementation German law prohibits:

- RoHS 2 – Guideline 2011/65/EG for the restriction of particular hazardous substances in electric devices and electronics
- REACH - Regulation (EG) No. 1907/2006 for the registration, evaluation, authorization and restriction of chemicals
- Regulation (EG) No.1005/2009 for substances that deplete the ozone layer
- Regulation (EU) No. 517/2014 for fluorinated greenhouse gases

With respect to packaging materials, we aim to avoid using environmentally hazardous materials and to use recyclable materials whenever possible.

In addition to honoring the fundamental rights, health, and safety of employees, Waycon Compliance also stipulates legal compliance, the prohibition of corruption and bribery, and prohibition of child labor.

Each and every employee helps to fulfill these central guidelines and ensures their implementation.
